## **Money-Saving Resources, Information and Events Spotlighted During “Water Awareness Month”**

SAN DIEGO – City Hall will be transformed into “Kiddie Hall” on Tuesday, May 3 as school children from throughout San Diego join the Mayor and San Diego City Council to be honored for their creative expressions about water conservation through the City’s annual poster contest and to kick off “Water Awareness Month.” The City of San Diego is recognizing Water Awareness Month throughout May and is inviting San Diegans to learn more about water, tap into City resources and participate in a series of fun and educational events.

While San Diego’s short-term water supply outlook is good, it is important to remember that San Diego still imports approximately 85 percent of its water supply from Northern California and the Colorado River. The conditions that affect these imported water supplies are cyclical and subject to change. Additionally, dry years are more common than wet years in Southern California. In response to these realities, San Diegans are adopting a long-term ethic to “waste no water.”

“San Diegans have done a tremendous job by saving water when we were faced with mandatory cutbacks,” said Mayor Jerry Sanders, who has demonstrated both at home and at work that water conservation is a priority. “While the drought may be officially over, waste is never an option. Using water wisely throughout the year needs to remain a permanent way of life,” added Mayor Sanders.

### **Informational Resources**

- Starting off the month is **“Drinking Water Week”** from May 1 to 7. Learn more about water sources, purchasing water, treating water, and distributing water. New information, **“From Source to Tap”** has been added to the City’s website at [www.sandiego.gov/water/quality](http://www.sandiego.gov/water/quality).
- Find fun facts about water, water-saving tips for inside and outside your home, report water waste and read about year-round water-waste restrictions. Also featured is a **Landscape Watering Calculator** that can help you determine the exact amount of water your landscaping needs. Go to [www.wastenowater.org](http://www.wastenowater.org).
- The City of San Diego's Public Utilities Department recognizes the importance of its responsibility with the money customers pay for water and sewer service. Learn more about how the department uses fees to fund programs, services and a vast, complex water and sewer system on the **Your Dollars at Work** web page at [www.sandiego.gov/publicutilities/dollarsatwork.shtml](http://www.sandiego.gov/publicutilities/dollarsatwork.shtml)
- “Like” the City’s Water Conservation Program on **Facebook** and follow tweets about water on **Twitter**. Join in the conversation and share water saving tips, ideas, resources and comments. Go to [www.facebook.com](http://www.facebook.com) and look for **“San Diegans Waste No Water”** or go to [www.twitter.com](http://www.twitter.com) and look for **“SDWasteNoWater.”** For all things water, wastewater and recycled water, friend the City’s Public Utilities Department at [www.facebook.com](http://www.facebook.com) and look for **“City of San Diego Public Utilities.”**

- more -

### **Resources to Save Water and Money**

- City water customers can take advantage of **free residential and commercial water surveys** through the Public Utilities Department to pinpoint water-saving options at your home or business, including identifying possible leaks. On average, an American home wastes more than 10,000 gallons of water every year due to running toilets, dripping faucets, and other household leaks. That's a lot of water, and money, wasted. Call (619) 570-1999, email [water@sandiego.gov](mailto:water@sandiego.gov) or visit the City's website at [www.sandiego.gov/water/conservation](http://www.sandiego.gov/water/conservation).
- Spring is in full swing and the City's Public Utilities Department has a new **residential and commercial outdoor rebate program**. By conducting a landscape makeover and maintaining a healthy garden, City water customers may be eligible for cash-back rebates on smart controllers, micro-irrigation and sustainable landscapes/turf replacement. Funded primarily by state grants competitively sought and obtained by the Department, the rebates are available to eligible single-family, multi-family and commercial customers on a first-come, first-served basis. Visit the City's website at [www.sandiego.gov/water/conservation](http://www.sandiego.gov/water/conservation) and look for "rebates."

### **Fun and Educational Events**

Thanks to the support from local community groups, City libraries and businesses, San Diegans can also enjoy free local events and get involved with the community and focus on all things water. All events are posted on the City's website under the header "**Money-Saving Resources, Information and Events Spotlited During Water Awareness Month**" at [www.wastenowater.org](http://www.wastenowater.org).

**May 3**

\*Please check the Water Conservation Garden's website for a full list of their events at [www.thegarden.org](http://www.thegarden.org).  
There are other classes and workshops scheduled in May that require a registration fee.

*The City of San Diego's Water Conservation Program reduces water demand through promoting or providing incentives for the installation of hardware that provides permanent water savings, and by providing services and information to help San Diegans make better decisions about water use. For more information about Water Conservation, call (619) 515-3500 or visit [www.wastenowater.org](http://www.wastenowater.org).*
